

Dear FCC,

I and my family personally appreciate K-Love radio in our area. It keeps us informed of things that interest us such as concerts and other events. The cost effectiveness of the K-Love network makes it possible to maintain an overall high quality of the programming as apposed to the low quality of programming that we had covering the local area years ago.

I believe that keeping the current policy in place serves the community much better rather than opening the door wider for new LPFM stations.

Sincerlly, Loren Kalina
